PORTO RICO BUSINESS.

The effect of the new relations of the United States with Porto Rico is plainly perceptible in the commerce between the United States and that Island during the month of May. The Monthly Summary of Commerce and Finance, just issued by the treasury bureau of statistics, shows that exports to Porto Rico have more than doubled as compared with the preceding May, and imports from the Island have nearly doubled. Exports to the island from the United States in May, 1899, were \$305,564 and in May, 1900, \$696,479. The imports into the United States from the Island in May, 1899, were \$647,179, and in May. 1900, \$1,103,867. This increase is the more remarkable because it had been understood that the people of Porto Rico had little to sell and little with which to buy, since the hurricane of last August had gone far to impoverish

the people of that island. It is also interesting to observe that the May commerce with Porto Rico shows a much greater increase than is the case with any of the other islands With Cuba the commerce of May differed little from that of May, 1899, and this was also the case with the Hawalian Islands; while in the Philippine Islands the imports show no increase, though the exports show a remarkable gain.

NOMINATES BRYAN.

Speech of W. D. Oldham of Nebraska, Naming the Candidate.

In nominating William J. Bryan for the presidency, General Manager W. D. Oldham, of Nebraska, said:

"Mr. Chairman:-More than a hun-"Mr. Chairman:—More than a hundred years ago the Continental Congress of America adopted a declaration which had been drafted by the founder of the Democratic party, and the joyous tones of the old Liberty Bell which greeted the act, announced to a waiting world that a nation had been born.

"With hearts unchilled by the selfish sentiments of cold commercialism, you have responded patriotically to each sentiment contained in Democracy's first platform as it was read to you at the opening of this convention; and in view of the radical departure which the party in power has made from the principles set forth in that historic document, it is meet that we true believers in the Hepublic of old, should, when choosing a field and forming our lines for the bloodless battle of ballots now impending, say in the language of one of the loved patriots of long ago: Read this declaration at the head of the army, and every sword shall be drawn from its scabbard, and a solemn yow taken to maintain it or to perish on the bed of honor."

"Much of the history of this republic shall be either made or marred by the action of this convention. You, as repredred years ago the Continental Congress

Read this declaration at the head of the army, and every sword shall be drawn from its scabbard, and a solemn vow taken to maintain it or to perish on the bed of honor.

"Much of the history of this republic shall be either made or marred by the action of this convention. You, as representatives of the only party which is conexist, and with its own ranks sufficient constructive statesmanship to create a nation in which is own ranks sufficient constructive statesmanship to create a nation in which each citizen becomes a sovereign have, true to the traditions you bear, in your platform set out in simple language, with a decided American accent, a plan for the people's redemption from each sacrilege and schism taught by the Republican party. The plan contains nothing but the approved precepts of the elders and doctors of your faith. If, on a platform, you place a candidate whose devoted and unblemshed life shall stand as a pledge to the plain people that he, in good faith, will carry out the solemn convenants made therein, then the hour of our uitimate triumph is at hand.

"There is no greater honor reserved for a citizen of these United States, than to become the standard bearer of the Democratic party. It at once enrolls his name on the scroll of the immortals who name on the scroll of the immortals who are not born to die, and encircles him with a haio of the glory of all the illustrious achievements which that unconquered and unconquerable organization, has tmbiazoned on every page of our nation's history. It entrusts to his keeping the fame of that long line of statesmen and patriots who have knelt for a blessing at Democracy's shrine.

metals of the constitution, the gold, that polished the winged sandals of Hermes, and the sliver that glitters in the bow of Diana.

"Instead of a panic breeding, credit currency, controlled by the bank trust, he must offer government paper controlled by the people.

"He must be able to distinguish between Democratic expansion and Republican imperialism. The first is a natural growth by the addition of contiguous American territory, into every foot of which is carried the Constitution, the flag and the decalogue, and over the shoulders of every inhabitant of the added territory is thrown a purple robe of sovereign citizenship. It is a growth that has added eighteen stars to the field of blue in the Banner of the Free' to symbolize the states that have been carved from territory, annexed to the domain of this nation, by the wisdom and statesmanship of the Democratic party; this is an expansion that is bounded on the north by the Constitution of the United States, on the east by the Monroe doctrine, on the south by the Declaration of Independence, and on the west by the Ten Commandments.

"How different this from the bandit policy of the republican imperialism, with its standing army and bayonet rule of conquered provinces; its government of sullen subjects against their will, by force and fraud; its denial to them of the protection of either the constitution or the commandment, which says: "Thou shalt not steal"—a policy that would send our Uncle Sam off his American range with a cowboy hat, a rope and a branding iron, to rustle and brand—over all the loose islands of the Orient, while hypocritically chanting the long-meter doxology.

"Democratic skies are tinged with a roser hue today than when we met in convention four years ago. Then a financial catacivem had spread over the country, and, although its every inducing cause was easily traced to the crows and foliles of the republican party, yet we were in power when it came, and were wrongly held responsible for the wreck of shattered fortunes which followed in

"While discord, with her flaming torch, "While discord, with her flaming torch, confused the counsels there, from out the Sunset Realm a champion came and bade defiance to the oncoming host. With the strength of youth, and the wisdom of age, with knightly mien and matchless speech, he towered above his peers and all who saw him then with one accord did hail him 'chief,' and gave our party's banner to his hand. Slowly despair gave way to hope; confidence took the place where timorous fear had been; the broken, shattered columns formed again, and behind him, singing, came six million five hundred thousand valiant men to that unequal sand valiant men to that unequal

"And the story of how well he fought, how fearlessly he fell, and how dearly the enemy's victory was bought, has all gone out into history now.

"Back from his 'first battle' he came, a baffled but unconquered hero of the rights of man. Conscious of the rectitude of his purpose and cheered by the belief 'that no issue is ever settled until it is settled right," he cheerfully acquiesced in the result of that campaign, and girded his loins for the next great contest between the dollar and the man. "For four years he has waged an unceasing warfare against the people's enemy: four years he has held up the party's standard, and his voice has cheered the hosts of democracy in every state and territory. When the trusts began to increase under the protection of a republican administration he was the first to point out the danger and prescribe a remedy.

candidate. On that question we are a reunited Democracy.

"Already worthy allies differing from us rather in name than faith, have shouted for our galiant leader again, and every state and territory has instructed its delegates to this convention to vote for him here. So it only remains for Nebraska to pronounce the name that has been thundered forth from the foot of Bunker Hill, and echoed back from the Sierras sunset slope, and that reverberates among the pinecial snow-capped hills of the north, and rises up from the slumbering flower-scented savannahs of the south; and that hame is the name of William Jennings Bryan, her best loved son."
